# SHARP INTERACTIVE

## SHARP

FEATURING:

### The Communication Touch

Discover a simple and intuitive user interface incorporating Sharp Pen Software.

### Amazing Connectivity

Connecting to a PC, server, or a Sharp multi-functional printer makes for fast and smooth communication and collaboration: BYOD.

### Big-Screen Impact in HD

Bright whites, deep blacks and vivid colours heighten the impact of these large LCD panels.

## Education

Create and sustain enhanced learning environments across the breadth of the education sector.

Teachers and students can collaborate and enjoy a more productive learning experience with interactivity enabled by Sharp's BIG PAD, while Sharp's expertise and understanding ensures these advanced benefits are intuitive and easy to use to ensure teachers can focus on their teaching not the technology.

## Corporate

The need to make a positive and lasting impression in the competitive corporate world has never been greater.

Stimulate new levels of engagement and interaction within presentations and video conferences with a Sharp BIG PAD. BIG PAD combines the power of display with on-screen annotation to give a total solution for presentations.

## DID YOU KNOW?

Ideal for education the SC5 range has freeze frame and black out buttons built into the bezel, while the 4 X HDMI across the range and the display port allows you to daisy chain to external screens. **Watch the Woodchurch High School case study here**

We recommend...

## Sharp BIG PAD

As an all-Sharp solution, there is minimum setup, highly acclaimed positive touch performance and effortless use of the Sharp software application tools.

The BIG PAD simply raises individual user confidence and ensures greater team collaboration. With a large range of display sizes all having FHD resolution, the BIG PAD is a great example of how Sharp is transforming the way organisations engage with information through connected technologies.
