HEALTHCARE

This September, Phillips voice recorders and professional dictation devices will be available from Midwich, expanding an already very impressive commercial audio portfolio of products and solutions expertise.

Digital audio and voice recorders are essential tools for students and professionals in the education, healthcare and legal markets. Also suitable for many other industry specialists such as journalists, architects, veterinarians, estate agents, and finance and insurance professionals who require seamless speech-to-text solutions, including professional devices, software, and services.

HEALTHCARE

Philips professional voice and audio recorders are tailor-made for health professionals. Their digital devices offer best-in-class audio quality in any recording situation and work seamlessly with clinical software and hospital information systems. Whether recording a patient's diagnosis and treatment or capturing important information of pre-operative discussions, Philips solutions help health professionals improve their productivity by saving time and simplifying workflow.

**FACT: IMPROVING
PATIENT SATISFACTION
IS ABOUT EFFICIENCY
JUST AS MUCH AS IT IS
ABOUT WELLBEING**

Ultra resistant and lightweight recorders perfect for working over longer periods of time

The new Philips Digital Pocket Memo 6000 series make the switch from analogue tapes to digital dictation simple and second nature. The Pocket Memo voice recorders offer breakthrough technology to achieve superior audio quality in any situation. Made of ultra-durable stainless steel, the recorder is lightweight and ergonomically shaped, perfect for working over longer periods of time in the practice, clinic or hospital.

Switching from analogue to digital dictation is up to three times more cost effective

Philips Digital Pocket Memo coupled with SpeechExec Pro software and a docking station is the perfect solution to maximise recording and transcription workflows. Going from a voice to text document is quicker than ever. As soon as the dictation is recorded and the device is docked, the files are automatically sent to a designated transcriptionist or a speech recognition software. It's as easy as Speak. Send. Done!

Now is the time to switch to digital dictation and save money. The new **Philips Pocket Memo** recorder coupled with Philips innovative software and accessories present a world of new options for saving time and increase workflow efficiency and productivity.
