

SHARP / NEC

NEC Du-Co Room System

For Creative & Interactive Meetings

Dual Screen Room System for Collaborative Environments

The 65" and 55" NEC Dual-Collaboration Room System combines two displays, an interactive NEC MultiSync® M651 IGB and an identically designed non-interactive MultiSync® M651 IGB non-touch, into a comprehensive user-friendly system. It is ideally suited for meeting and collaboration environments, equipped for both fully present and hybrid team meetings.

The Highlights

No need to compromise on design

Practical doesn't mean ugly. With a sleek and elegant design, the display solution seamlessly fits into modern office spaces.

Enjoy a natural writing experience

It's just like writing on paper! Whether using a finger or pen, the InGlass™ touch technology provides seamless interactive touch performance including Windows Ink and palm rejection.

Productivity has no limit

Enjoy a free version of FlatFrog Board collaborative whiteboard software to increase the efficiency of your meetings.

NEC Open Modular Intelligence (OMI) slot-in technology

Choose scalable computing power with Raspberry Pi Compute Module 4 or the more powerful Intel® Smart Display Modules (Intel® SDM) for tailor-made solutions.

Reliable 24/7 operation

The meticulous selection of industrial-grade components and careful design focused on demanding usage scenarios accompany an impressive and continuous viewer experience.

Book a Demo at Innovation House

Innovation House is the UK's largest multi-brand experience centre or as we like to call it, your technology playground! From 2023, the Dual-Collaboration Room System will be installed so you can come and get hands-on with the product and make side-by-side comparisons to other meeting room displays to find the perfect solution for your business.
