WELCOME TO
SAMSUNG
INTERACTIVE!

SAMSUNG

Samsung Interactive products offer leading edge features that enable end users to customise and build the right solution; with options to utilise the inbuilt OS, plug-in the optional android box, and access the educational app store.

This variety of options enables end users to benefit from as rich or as simple functionality as they require. Samsung has also focused on the end-end experience for deployment in a real-world environment. Additionally, the System on Chip (SoC) is unique as it allows complete management and control over a network and screens can be easily adapted for digital signage purposes.

FACT

The World Wide touchscreen display market is growing **10x faster** than the overall display market[1]

We recommend...

SAMSUNG DM65E-BC
65" LED Interactive PCAP Touch Display, 1920x1080

SAMSUNG DM65E-BR
65" LED Interactive IR Touch Display, 1920x1080

Corporate & Public Sector

COMPELLING, INTERACTIVE PRESENTATIONS START HERE...

**A MORE COLLABORATIVE
MEETING ROOM**

Share ideas quickly and easily, thanks to an all-in-one solution built with everything presenters need to craft enthralling business presentations.

**UNPARALLELED
PICTURE QUALITY**

Unlike traditional, projection-based Smart Boards, Samsung's Interactive Display boasts an LED screen with 5,000:1 Contrast Ratio for deeper blacks and brighter whites, and an Anti-glare Touch Overlay for crystal clear viewing.

**MAXIMISE ROI
IN THE OFFICE**

Increase employee engagement, cut down on meeting times and eliminate the need for printouts. And when not in meetings, the display functions just as well as digital signage for your business.

Education

A NEW WAY TO LEAD LESSONS...

**ENCOURAGE
COLLABORATION**

Encourage students to interact and collaborate with each other, thanks to a range of pre-installed, intuitive, easy-to-use tools and a deep, rewarding user interface. As well as the embedded MagicIWB S2 and Airscreen software, each display includes a Pen and Tray and all the essential external ports for sharing information to the room.

**TAILORED FOR
THE CLASSROOM**

No matter what size your classroom, there's a Samsung Interactive Display that fits. And with their rounded edges and tempered safety glass, your classroom will stay accident free - all while offering unparalleled picture quality and a range of different input options to suit the needs of your students.

**STREAMLINE
DEPARTMENT RESOURCES**

Cut down on print outs and encourage more adaptive lessons, by getting teachers and students alike into the habit of sharing their work with the group on-screen. And when not in use, the displays can be used as digital signage for school-wide announcements.

Samsung Interactive E-Boards

All screens have 10 Touch Points (2 Touch Points SoC) and can be installed in portrait mode.
