Bringing easy organisation to retail.

Find out how Brother's label printers streamlined and sped up label printing for the optical centre Martínez-Lorca.

For any retail environment, it's important to keep items organised so workers can serve customers efficiently. The Martínez-Lorca optical centre in Madrid previously used label printers that produced half-printed labels and used more paper than necessary, resulting in poor customer service. **To find out how Brother saved Martínez-Lorca time and resources while facilitating quick customer service, click the button below:**
