

# Promethean ActivPanel D-Series

## Clear communication across every environment

Organisations rely on clear, visible communication to keep employees, students and visitors informed. The **Promethean ActivPanel D-Series** makes it easy to deliver important messages across busy corporate and education environments.

Designed as a dedicated digital signage display, the D-Series helps organisations share announcements, event reminders and key updates in high-traffic areas such as hallways, reception spaces and communal areas.

With bright, large-format displays and reliable day-to-day operation, it ensures messages are seen when and where they matter most.

**Available in sizes 55", 65" and 75"**

## Built to keep organisations informed

### Deliver messages that are seen

Large format 4K displays ensure announcements, reminders and important information remain clear and easy to read in busy environments.

### Improve communication across shared spaces

Place displays in hallways, reception areas and communal spaces to keep employees, students and visitors informed throughout the day.

## Designed specifically for signage

A non-interactive display built for digital messaging, helping organisations communicate clearly without unnecessary complexity.

## Reliable, low-maintenance operation

Durable commercial-grade design supports consistent, always-on communication throughout the day.

## The Midwich advantage

Midwich helps partners deliver the right digital signage solutions with confidence.

Our specialist display teams support partners with product guidance, project support and stock availability, helping you specify the right display for every environment.
