

Midwich Credit Intelligence

FREE service

As a valued customer, we would like to invite you to join our **FREE Credit Intelligence service**, which could help protect your company against fraud within our industry.

Traditionally, the IT and AV distribution channels have seen large numbers of suspicious approaches, ranging from toners to large LCD screens and plasmas. Many distributors like Midwich have built robust procedures to minimise bad debts through frauds. We are now finding that suspicious individuals and businesses are approaching the reseller channel, where there may not be the same robust procedures and experience in place.

Last year, we felt that it was our duty as a high quality distributor to help protect our valued customers from the risk of fraud. That's why in June 2009 we launched **Midwich Credit Intelligence Alerts**, a FREE service to all our valued customers, which circulates suspicious approaches within our confidential closed user group. This service relies on input from our customers, which we subsequently investigate and report on through emails. We have received enormous feedback on how beneficial this has been and are actively encouraging more resellers to sign up to the service.

We can also offer advice on how to defend your company against potential fraud. Obviously fraud will never be eradicated and will no doubt be on the increase in the current economic climate. Business may be slow and with companies fighting for orders, this may leave you open to take risks you previously would have avoided.

In order to sign up to this **FREE service**, all you need to do is complete the form on the reverse and send it back to us.

If you have any questions or would like to submit your experiences, we would love to hear from you. Your key contacts to share this information with are:
