

PAPERCUT FOR EDUCATION

Manage student and staff printing

EDUCATION FEATURES

PaperCut will help your education customers save money by enabling them to monitor and control student and staff printing. Already used worldwide by many colleges, schools and universities, **PaperCut** works with any fleet of MFDs, single or mixed brands and offers a wide range of student pay-per use options, links with BYOD and gives visibility of print costs split by department or student.

Classroom Quotas

Manage spending by student, subject or department.

BYOD

Print from iPads, Chromebooks or leased laptops.

Accountability

Each page prints with an identifying watermark.

Approve Printing

Jobs get held in a queue for teacher approval and release.

Reports

Report on all printer activity by student, class or dept.

Printing Policies

Promote savings with duplex and B&W printing rules.

Manage student Payments

A wide range of options for accepting student payments.

Flexible Charging Models

Define page costs, charges and discounts for each printer.

Control for Faculties & Departments

Manage a department budget with shared accounts.

"PaperCut's ease of use, mixed with its powerful scripting and filtering systems – and combined with its many varied reports – make it our ideal print management solution. We can safely just leave it to do its job and not have to worry about running up massive printing bills."

Tony Ayre, IT Manager, Minehead Middle School
