Label Printers

OKI's Pro Series Label Printer offers your business stunning print quality, creative freedom and cost efficiency with four- and five-colour narrow-format printing on a wide range of materials. For product and packaging labels, you can meet all your customers' label printing needs in-house and to professional standards. Printing on-demand, short runs of highly customised labels.

Transfer Media printing

The cost-effective alternative to Direct-to-Garment (DTG) printing, transfer media printing can print on any fabric, offering your business speed, agility and stunning print quality. Unique to OKI White toner printing enables quality printing on garments of all colours.

Light Production & Packaging

Offering shorter print runs, variable and personalised content and consistent, professional print quality. Light Production Printing boosts your margins, streamlines production costs and makes your business more flexible.

Mono, Colour & Line Printers

Compact, fast, affordable and reliable, OKI's printers never compromise on quality, giving your business the best chance of attracting new customers with professional, on-demand printing. Whether it's brochures, flyers, posters or business cards with OKI's range of office printers high-quality, in-house printing comes as standard.

Additionally, our range of line printers offer solutions for printing multi-part forms, purchase orders, invoices and receipts, and are ideal for logistics, manufacturing, and back-office archiving where speed and reliability in challenging environments is a must.

Kiosk Printing

Increasing customer expectations for self-service and on-demand services create a compelling business case for kiosks at key locations.

Offer customers high-quality colour print to ensure satisfaction and document clarity. Minimise storage requirements, simplify kiosk design, and improve maintenance efficiency with the world's smallest A4 high-performance colour printer.

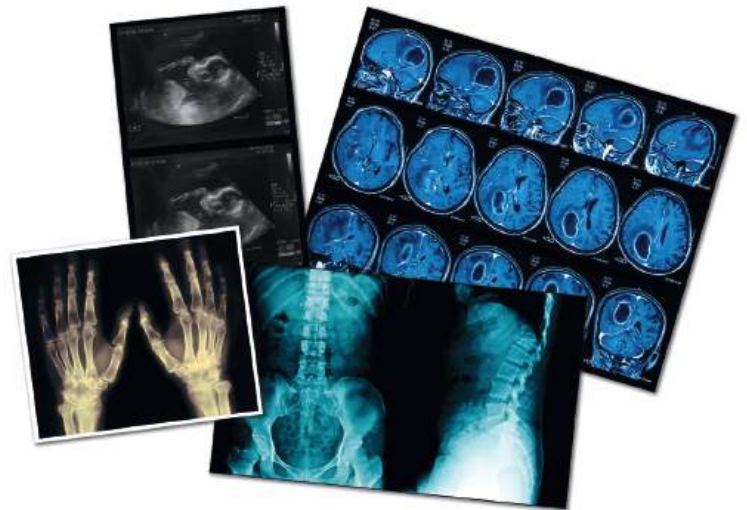

Engineering/Construction – Keeping construction projects on track

With superb print quality and the flexibility to print up to 1.3m long documents, construction professionals can print the fine details of drawings, project plans, blueprints, and instructions, as well as site signage, on-site, saving time, money and space.

Healthcare – The best medicine for busy hospital wards

OKI's DICOM-embedded solutions can talk directly with medical equipment including nuclear medicine, ultrasound, MRI and CT scanners, maintaining all DICOM metadata without the need for a separate server, as well as seamlessly integrate into the back office printing meaning one single device can cover medical equipment and office printing needs.

Chemical/Manufacturing – Enabling safety and compliance on-demand

Durable compliant labelling is essential in the chemical/manufacturing sector. OKI's printers are designed to print BS5609 compliant GHS & Teslin labels on-demand with no need for specialised thermal transfer, pre-printed paper or ink-jet printers. Specially designed for small and medium companies, OKI's all-in-one printers reduce waste and support short run printing, office printing and many other applications. OKI's extensive partnerships with chemical label manufacturers also provide integrated solutions including labels, printers, software, consumables and technical support.

Retail/HoReCa – Capture customer attention

From pricing changes to special promotions, OKI deliver high quality signage in-store and on-demand, to help retailers improve customer satisfaction and loyalty, increase staff productivity and generate sales. OKI's printers produce up to 1200x1200 dpi resolution on a range of media, weights and sizes. From pre-cut media, such as small price tags, personalised packaging, bottle collars and sleeves, to 1.3m hanging or free-standing banners, removable floor-stickers and window graphics. OKI's printers can even print on waterproof and UV resistant media maintaining a professional finish and exceptional colour vibrancy both inside and outside your store.

Education – Inspiring students to push the boundaries of creativity

Faced with tough budget constraints, schools and universities need reliable, up-to-date and affordable printing solutions that can both support and inspire. OKI's Education Solutions provide flexible, cost-effective printing, from colourful and engaging learning materials as well as reports and back office documentation for schools.

OKI's unique 5 colour printers also play an integral part of university courses enabling Graphic Arts students to build a unique portfolio of their creative inventions on different media types and sizes, pushing creative boundaries using pure white or colours on top of white to heavily improve colour quality on dark or transparent media. Gloss effects can also be achieved with the clear toner, for watermarks and UV designs – perfect for personalised packaging designs.

Daniel Urquhart - Gentrifying Berlin

Daniel explored the gentrification of Berlin, through a 74-page, A5 photography book, containing over 40 black and white images. Printed on OKI's Pro9541, Daniel was able to realistically capture the mood through striking monochrome images. <http://danielurquhart.com/>

Label Printers

Four and Five Colour Label Printers

The Pro1040 and Pro1050 represent OKI's new innovation in label printing technology and will help businesses bring greater attention to their products through the quick, easy and cost-effective creation of eye-catching labels. The Pro1040 prints in CMYK, whilst the Pro1050 prints in CMYK plus White (CMYK+W). With the White toner, users have the added advantage of printing on transparent or coloured label media.

Impress customers with 5 colour label printing, even on short-run jobs!

Say yes to 5 colour label printing on weatherproof, metallic and more synthetic labels with the OKI Pro1050 (CMYK+White) printer.

Labels that can handle UV, moisture or extreme cold without breaking a sweat

The OKI Pro1050 is capable of producing high quality, high durable labels suitable for the demands of commercial use.

- BS5609 compliant
- Resistance to harsh chemicals & solvents
- Waterproof & moisture resistance
- Oil resistance
- Extreme temperature resistance
- UV resistance

Easy setup, minimal training, no stress . . .

- Low maintenance and robust
- Easy workflows with roll-to-cut or roll rewinding
- Set up new jobs in minutes
- Variable data printing is a breeze
- Easy to use driver and hardware

Versatile media handling for professional-grade label printing

- Roll-fed with various media, including paper and synthetic film
- Print labels for outdoor use, freezer and cold storage, food, beverages and household goods
- Labels can be printed and cut to produce a roll of labels or cut one-by-one
- Print only what you need and minimise wastage
- Produce intricate designs on transparent or coloured labels with white toner and white under colour toner

Transfer Media Printers

Transfer printing is the cost-effective alternative to Direct-To-Garment (DTG) printing. With low setup costs and fast return on investment, it's also more flexible as it supports any fabric and can print white on colours, enabling creative and personalised printing that broadens business opportunities.

“One of the challenges we have here is how to print white on dark garments. When I first learned about the OKI White Toner printer technology I was blown away. The turnaround time is fast, and the quality is exceptional.”

– Jamie Williams, Sales Manager, Geared Up Solutions.

[Click here to watch the video](#)

“With the OKI printer, it's so ridiculously inexpensive for us to print t-shirts and the mark-up is wonderful. Our customers are happy, we're happy and we get the job done in a much more efficient way.”

- Leanne Douglas, Owner, Sweet Tees & more.

[Click here to watch the video](#)

“Using OKI's White Toner Digital Transfer Media printers, we can customise anything for example, shopping bags and T-shirts, even in limited quantities, including individual items, which is impossible with other technologies.”

Mario Bettucci, Owner, Promart Design.

THE WORLD'S SMALLEST A4 COLOUR PRINTER THAT DOES IT LIKE A PRO

The OKI C650 punches well above its weight. Despite its ultra compact size, this printer is capable of handling all manner of business printing needs in-house and on demand.

“For small print runs, this is often cheaper and faster than using a commercial printer. As we emerge slowly from lockdown, being able to produce high quality signage to inform and alert customers and employees will be critical for every size of business. OKI's C650 give them that flexibility”.

Michelle Ryder, Editor, PrintIT Reseller

THE OKI C650 IS ULTRA-COMPACT, LIGHTNING FAST AND VERY PRACTICAL

COMPACT

- A small footprint to fit easily into the tightest spaces
- Only 2cm space needed on the sides and 20cm above plus full frontal access

FAST

- First print in only 6.5 seconds
- Capable of 35 pages per minute (PPM)

PRACTICAL

- Separate toners and drums for lower running costs
- 48% metal construction for increased reliability and durability
- With up to 5 trays, it's possible to hold 1,940 sheets of up to 5 different types at a time

INCREDIBLE TOTAL COST OF OWNERSHIP AND MORE...

Eco-friendly

The OKI C650 is kinder to the planet, less use of plastic, less packaging and revised toner design help to reduce the environmental burden.

Versatile

Print with ease on media as light as 60gsm and up to 256gsm, as small as B8 or up to 1.32m long plus double sided printing.

Ultra reliable

A unique design and use of high value componentry makes it the most robust A4 printer.

Full frontal access makes daily use painless

Small and powerful: Discover an A3 colour printer that's compact, eco-friendly and offers endless possibilities

The smallest A3 printer on the market, the C800 Series can handle all your printing needs including business cards, pre-cut media, posters, banners up to 1.3m long and beyond. Combining unrivalled media flexibility, ultra reliability and OKI's pioneering digital LED technology, this productivity boosting device is perfect for creating professional quality customer facing collateral, as well as day-to-day office documents, in-house, on demand.

The C800 Series warms up almost instantly and conserves energy thanks to OKI's innovative fusing technology, saving time and increasing efficiency, making it the perfect choice for any busy business or workgroup.

Key features

- Smallest footprint A3 printer on the market, perfect for retail where space is at a premium
- First page out as fast as 6.3 seconds (C844)
- Up to 36ppm colour print speed
- Fast duplex printing
- Paper capacity up to 2,540 sheets and media weights between 64 and 256gsm
- Excellent 1200 x 1200dpi print quality (C844dnw) for professional quality collaterals

Mobile printing

- Wireless LAN as standard (C844)
- Tap your NFC enabled Mobile device to the printer and print - no network needed
- Gigabit Ethernet enables fast transfer of large colour files across the network
- Wireless Direct offers safe simultaneous connection of wired and wireless networking
- AirPrint and Android ready for printing on the go

Easy to use

- Easy to set-up and get started
- Troubleshoot by tapping your NFC enabled Mobile device to the printer
- Store templates and documents on the device for all users to print without authentication (Shared Print)
- Fleet management software at no cost - SENDYS Explorer
- Keep documents confidential with Private Print and optional Card Release, so users can view all their print jobs before selecting to print

Unrivalled media flexibility

- Excellent media flexibility - A6 to A3 and up to 1321mm long banners
- 55mm minimum paper width from the Multi-purpose tray
- Optional Banner Tray available for printing multiple banners in one go

Cost and energy saving

- OKI's new fusing technology enables the printer to warm up and quiet down almost instantly, saving time, increasing efficiency and conserving energy
- LED technology means no moving parts for a longer life
- Print marketing materials and retail signage in-house, thanks to outstanding print quality and media flexibility
- Deep Sleep mode saves energy, Auto-Off mode automatically powers down to less than 0.15W when not in use
- Toner Save to reduce cost, when printing draft or internal documents
- Duplex printing reduces paper usage

For more information on the C800 series, please scan the QR code.

3 Simple Steps to engage your customers

Produce

- Adapt existing templates and graphics tailored to your sector
- Create your own bespoke designs using Canva, CorelDraw, Adobe InDesign, Illustrator, Photoshop or other graphic software
- Export designs-into PDF

Print

- Seamlessly print professional-quality signage, posters and collateral
- Generate QR coded stickers for low-touch communications
- Personalise collateral through variable data printing

Place

- Engage your customers with personalised materials
- Increase basket value and repeat purchases
- React quickly to changing trends and demands
- Avoid long lead times and delivery delays

Empower your business with In-house printing

OKI Colour printers saves you time and money by bringing the entire project and design process in-house. Effortlessly respond to changes in your market, remove lead times and deliver a great customer experience quickly and cost-effectively.

We pioneered Single-pass Flat Paper Path technology to bring you fast affordable colour printing.

In consumables, we created a special Microfine High Definition Toner to ensure your documents are printed in superior quality.

We championed the development of digital LED technology in printers over 20 years ago. This innovation delivers High Definition printing – for more accurate, striking printed documents.

Thanks to this digital LED technology, our printers are compact, environmentally friendly and energy efficient, using significantly less raw materials in the manufacturing process and consuming less energy.

LED print heads have no moving parts, making our printers robust and ultra reliable.

Monochrome printers

From micro businesses to large corporations, OKI's monochrome range includes models to suit all, from compact desktop printers to networked workgroup printers.

DICOM Embedded – Medical Printers

Optimised for printing medical imaging, OKI's cost-effective DICOM-embedded A4 and A3 LED printer range with unique Internal DICOM server, allows you to integrate seamlessly OKI's Medical printer into your modality network like any imager. No additional hardware or software is required for this fully integrated solution.

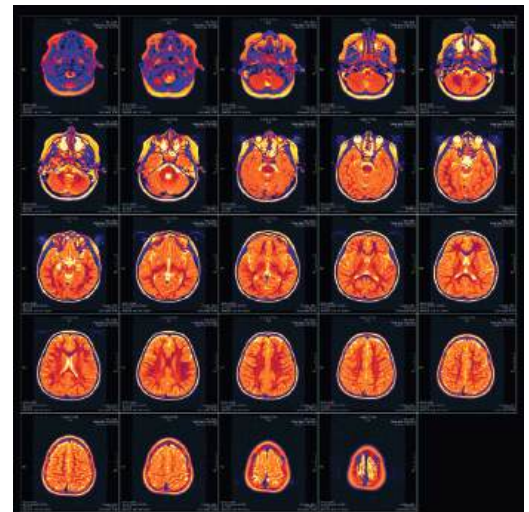

A3

A3+

	ES8431DMe	Pro9431DMe
Description	A3 Colour and Mono DICOM medical printer	A3+ Colour and Mono DICOM medical printer
DICOM Server	Embedded OKI DICOM 3.0 Print SCP	Embedded OKI DICOM 3.0 Print SCP
Recommended usage	Nuclear medicine, Ultrasound, CT, MRI, X-ray	Nuclear medicine, Ultrasound, CT, MRI, X-ray
Maximum number of AET with independent setup	25	25
Number of Connectable Modalities	No restriction (see DCS)	No restriction (see DCS)
Simultaneous printing connections	3	5
Booklet capability	1 Sheet – 2 images & cover	4 Sheets – up to 14 images & cover, CD page
Print speed	A4: 35ppm colour/35ppm mono A3: 20ppm colour/20ppm mono	A4: 50ppm colour/mono A3: 28ppm colour/mono
Print resolution	1200 x 600dpi, ProQ 2400dpi Multi-level technology	1200 x 1200dpi, ProQ 4800dpi Multi-level Technology
Time to first print	9.5 seconds colour/mono	8 seconds colour/mono
Networked	Standard	Standard
Duplex printing	Standard	Standard
Paper capacity (sheets)	Standard: 400 Maximum: 1,990	Standard: 830 Maximum: 2,950
Power consumption	Deep Sleep: <1W Auto-Off: <0.5W	Power Save: <34W Deep Sleep: <4W
Memory RAM	Standard: 768MB Maximum: 768MB	Standard: 2GB Maximum: 2GB
Printer language	PCL, PS, SIDM, PDF Direct Print	PCL, PS, XPS, SIDM, PDF Direct Print v1.7
Paper sizes/weights	A3, A4, A5, A6, B4, B5; Custom size up to 1321mm and weights up to 256gsm	A3+, A3, A4+, A4, A5, A6; Custom size up to 1321mm and weights up to 360gsm
Recommended Duty Cycle (pages/month)	Up to 5,000 (50k max)	10,000 to 25,000 (300k max)
Weight	37kg	97.6kg
Dimensions (WxDxH)	449 x 552 x 360mm	699 x 625 x 640mm
Toner Cartridge (K)*	10,000 pages	51,000 pages
Toner Cartridges (CMY)*	10,000 pages	42,000 pages
Image Drums (CMYK)*	30,000 pages	40,000 pages
Fuser Unit	100,000 pages	150,000 pages
Transfer Belt	80,000 pages	150,000 pages
Waster Toner Box	-	40,000 pages

* Capacity for office usage, Medical Imaging usage strongly alter this value.

MX Series Line Printers

Robust, reliable and highly versatile OKI's MX Series line printers are perfect for printing multi-part forms, purchase orders, invoices and receipts. These line printers are perfect for a wide range of printing applications including spreadsheets, listings, picking lists and data logs. Built to extremely high standards, OKI's MX Series Line Printers provide, non-stop, trouble-free performance in the toughest operating environments.

	MX8050	MX8100	MX8150	MX8200
Description	Line printer	Line printer	Line printer	Line printer
Print speed	500 lpm	1,000 lpm	1,500 lpm	2,000 lpm
Copy capacity	Up to one original + 5 copies			
Power consumption	Operating: Max. 320W (ISO10561 (High Speed Draft, Range1) Printing Approx. 280W) Power Save: < 5W			
Design variants	Pedestal, Pedestal Zero-Tear, Cabinet	Pedestal, Pedestal Zero-Tear, Cabinet	Cabinet	Cabinet

OKI MX Line Printers deliver unmatched industrial durability and the lowest operating cost of virtually any print technology.

RUGGED

- Extremely high maximum monthly workload to meet & exceed the most demanding print requirements
- Dependable operation in harsh environments withstanding humidity, extreme temperatures, and airborne contaminants
- Durable sheet metal cabinetry and sealed electronic componentry

FLEXIBLE

- Media flexibility including multi-part, wide format, labels, card stock, and recycled media
 - Optional OpenPrint functionality offers ease of connectivity to ERP or WMS applications generating PDF or PostScript output
 - Flexible connectivity with standard support for Ethernet 10/100BaseT, USB 2.0, and Serial RS-232
 - Optional support for 802.1X and IPv6 allow for compatibility with changing network environments

AFFORDABLE

- Ultra-low consumables cost per page is around 1/5th that of laser
- Powerful remote management for printer configuration, firmware downloads, and diagnostics
- Consumes less energy than laser, while generating far less consumables waste

3 Year On-Site Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests.

We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years at no extra cost. Simply register your product within 30 days of purchase to be eligible for our unique all inclusive offer.

For further information please visit:

<http://www.okieurope.com/warranty>

Without registration, the standard pan-European 1 year warranty applies.

Taking our environmental responsibilities seriously

OKI is committed to maintaining sustainability through our products without compromising the ability for future generations.

The OKI C650 is not just a compact printer – it also has a reduced impact on the environment when compared with other printers.

Its small size and innovative design use 48% less plastic than comparable devices, which means it has the lowest proportion of plastic used in an OKI printer.

Its robust and durable metal means components last longer, therefore reducing waste.

The revised toner cartridge design reduces the logistical footprint while maintaining high capacity

And finally, our smaller device and toners means it requires significantly less packaging.

Our commitment to achieving net zero CO2 emissions

In light of the global trend in recent years toward decarbonisation, businesses are calling for reductions in greenhouse gas emissions throughout their supply chains. The OKI group is therefore committed to achieving zero CO2 emissions for all its contracted testing and evaluation services by FY2025. The proposal is to make steady progress by switching to renewable energy sources at all its facilities.

As proof of this, OKI's new factory in Japan is the first large-scale production facility to earn Net Zero Energy Building certification. We achieved the highest award from the Building-Housing Energy-Efficiency Labelling System Based on recognition of the 133% energy savings achieved at the design stage. It is the first large-scale production facility to earn the Net Zero Energy Building (ZEB) certification.

OKI
